Amos A Phelps

In Sir I am yours of the 22nd
 proposing to lecture in our cities upon
 the subject of Slavery, we should be glad
 to hear you and will make preparations
 for it as soon as it appears best for the
 public we are at present holding a
 protracted meeting and we do not feel
 willing to do any thing to divert
 attention for a few weeks I will write
 you again soon and say when we are
 prepared at the same time you can
 write me and say what day will
 accommodate you

yours
